FIFA is Electronic Arts' long-running association football game franchise. In a series that started in 1992, the game has gone on to become the world's top-selling sports title. EA's latest release in the series, FIFA 19, was the best-selling sports game for 2018. The Gameplay As the title implies, FIFA is a football game. Players navigate their virtual team through the stadiums of iconic venues, and attempt to score goals by taking shots at goalkeepers, the ball, and opponents. FIFA matches are much like real matches, with players switching between all available controls to choose which direction to attack. The game features manual and automatic passing controls, as well as dribbling, shooting, and tackling. The game also offers the ability to edit the tactical shape of your team on-the-fly during gameplay, adjusting players to suit the strengths and weaknesses of your preferred playing style. The game also features over two million licensed players and a matchday setting that presents live stats and commentary from ESPN, as well as broadcasts from the world's best football leagues. The Game Modes There are FIFA modes for every type of player. In Ultimate Team, players can assemble a team of real and licensed players from all over the world. Matches must be played to generate Ultimate Team points, and points can be accumulated for specific kits and teams. In Career Mode, players attempt to win tournaments and compete in the World Cup. The game gives players control over their actions and their team's performance, adjusting tactics and training routines as necessary. In FIFA Interactive World Cup and Squad Battles, you can take on players from other FIFA games or players from other eSports titles in virtual battles to win prizes. The World is Your Stage FIFA 19 expands upon the gameplay and game modes of past FIFA titles, adding a number of new ones, along with a number of features that have been long requested by the game's playerbase. Among the new features in FIFA 19 is a brand-new online Pro Clubs, which is a mode that's been long requested by Pro Clubs players. Pro Clubs, which is short for the Pro Evolution Soccer series, is a franchise mode that enables players to compete against others in the world for championships. Pro Clubs mode allows for the creation of leagues of virtual players and clubs, and then permits players to compete against each other online for
